Declaration of Compliance

vibers™ paper & cardboard

Page 1/1

Version 01

Issue date : 14-05-2019

Revision date : 14-05-2019

Content

We hereby confirm that vibers™ paper and cardboard, as well as the raw materials used to produce them, are not harmful to health. This statement is based on the present state of scientific knowledge and the declarations of our suppliers.

Our products meet the requirements of the terms and conditions, according to the BfR XXXVI guidelines. Our products are not harmful to health, as long as they are properly handled and used for the purpose they are produced for (direct/indirect foodcontact). Depending on the type of materials used, our products are suitable for packaging of:

- Dry food

Since vibers™ does not know the exact mixture of the customer's product, it is his duty to make sure that the use of packaging (from filling until retail) is in accordance with the existing legislation.

All our agreements are in accordance with the European law, as mentioned above. In case of deviant terms of legislation in the country of use, the conformity of our products in relation to enforced local legislation is the responsibility of our customers. This certificate is valid for a period of two years. Any change in composition of the packaging material, and its use, will make this certificate invalid.

Fredric Petit
CEO
