Vibers inside

Vibers develops advanced technology and materials with local Elephant grass fibres; the 100% natural miracle crop.

Vibers premium quality paper & cardboard is available as plano sheets and on roll in various sizes and weights.

Applications include packaging material for food & non-food products, POS marketing materials and printed products like business & compliment cards, flyers, brochures, labels, notebooks, letters and envelopes.

Benefits of our paper & cardboard

- Low ecological footprint (carbon & water)
- Biobased
- Biodegradable
- Compostable
- Made in Holland
- Natural look and feel
- Food approved
- Strong and recyclable
- Printable, preferable with eco-ink
- Life span guarantee of up to 100 years (in conformity with ISO 9706, for archiving)
- pH Neutral and Acid free

Where to buy our products

You can order Vibers paper & cardboard directly from Vibers. Please contact us for options and prices. We are always happy to help.

Next to paper we also offer Vibers bioplastic and Vibers bio-concrete.

Your products deserve Vibers. Let's change the world together.
